

Meeting Notice

November 13, 2017

Dear Resident:

A resident meeting to discuss the **Joann & Lila Place Improvements Project** will occur on **Wednesday, November 29, 2017 at 6:00 P.M.** in the Council Chambers at the Twinsburg Government Center; 10075 Ravenna Road. The project is scheduled to bid in early 2018 with construction occurring this coming spring/summer. If you are unable to attend this meeting, and have any questions, please call me at 330-963-6233 or by Email: amohr@twinsburg.oh.us to discuss your concerns.

At the resident meeting we will go over what work is being proposed. At the last meeting, many individuals on Joann Place expressed concern about rear yard storm water as the homes are in a low area with water from Glenwood, Darrow and Lila flowing across back and side yards. We will be installing a few additional catch basins in the street near the cul-de-sac but in order to install any storm sewer outside the road right of way, a storm sewer easement is required from the property owners. If you live at one of the following addresses; easement paperwork is included in this mail out (9937, 9938, 9941, 9941, 9944, 9945, 9949 Joann Place).

Once we publically bid and award the project to a contractor, you will again be contacted with additional information on the project, anticipated start date, and what to expect during construction. We will also issue a project E-Newsletter for those that provide an email address. The E-newsletter will be sent out periodically during construction to provide project schedule updates and alert you to specific operations/concerns.

Respectfully,

A handwritten signature in blue ink, appearing to read "Amy Mohr".

Amy Mohr, P.E.
City Engineer
